EXPERIENCE

ANALYST – RELEASE OF INFORMATION | MRO

January 2026 – June 2026 | Pune

- Processed **120+ requests daily for release of records** like medical, billing, mammograms, radiology records and handling requests as per different types of requestors like patient, provider, legal, subpoenas, audits while applying HIPAA Minimum Necessary Rule.
- Selected as one of the team members to process medical record requests in **MRO ROI systems** using **AI-based Auto logging software** along with **Manual logging** and **E-requests** directly from facilities. Also used software like VDI, ROI, OpsCare Matrix for accurate request management.
- Processed medical record requests received from leading healthcare organizations including **Datavant, American Retrievals, Optum, Aetna, Veterans Affairs (VA), Ontellus, Humana, Corvel, Cotiviti and other third-party entities**, adapting to client-specific documentation requirements while ensuring **HIPAA-compliant processing**.
- Worked under various facility dashboards including **Northwell Health, Fairview, MercyOne, Trinity Health System, Holy Cross, St. Joseph Health System**, quickly adapting to facility specific SOPs, turnaround times, delivery requirements and STAT processing guidelines. Frequently assisted in clearing pipeline backlogs while **maintaining accuracy**.

CASE PROCESSING EXECUTIVE | AM Infoweb (Record Retrieval Specialist)

May 2025 – November 2025 | Pune

- Managed **70–84 record retrieval tasks daily**, communicating with 70+ hospitals, clinics, physician offices and third parties across various industries. Worked with law firms, restaurants and insurance companies on case specific record retrievals, tailoring communication and documentation to meet unique legal and claims requirements.
- Communicated with top copy services including **CIOX, MRO, Sharecare, Verisma, ScanSTAT Technologies, HealthMark Group and ChartRequest** to ensure accurate & **HIPAA-compliant record delivery**.
- Conducted **200+ weekly emails**, building rapport with medical staff and third-party contacts while maintaining full compliance. Processed **20–30 invoices per week**, issuing check requests & facilitating direct payments for low-value invoices to reduce delays.
- Logged and tracked **12,000+ records** using internal data entry tools like **VDT and RSVP**, along with organized **Excel sheets** for real-time data accuracy.

DATA ANALYST INTERN | Excelerate

August 2024 – September 2024 | Remote

- Cleaned and analyzed **10,000+ records** from famous **Titanic and Traffic accident datasets**, uncovering trends, correlations and anomalies that improved data interpretation accuracy by 20%.
- Conducted sentiment analysis on **5,000+ social media posts**, identifying public opinion patterns with an 85% accuracy rate, driving insights for customer engagement strategies.
- Designed and executed SQL queries that improved key metric **extraction speed by 30%**, enhancing workflow efficiency and supporting real-time decision-making processes.
